

## Q11 Electric shearing

### FEATURES:

- Single-side open-type mechanical down driving system with safety stability, compact construction, ease of operation and modern appearance.
- Equipped with rotary-key clutch, it can be sensitive operated with low noise, low maintenance and long service life.
- With low cutting angle and inclined shear direction, bowing and twist of the material is kept to a minimum.
- Adjustable butterfly-spring hold-down device for minimum displacement of sheet-plate so cutting precision is ensured.
- Easily operated gear shaft back gauge with scale works great for shearing in batches.
