On car brake lathe, brake disc lathe, hot-sale brake lathe

Brake Drum/Disc Cutting Machine T8370

Brake drum lathe is for repairing the brake drum, brake shoe and brake plate.

The machine is suitable for processing the brake drum, brake shoe and brake plate of various domestic and foreign cars and sedans. Have the advantages of beautiful shape, rational structure, easy operating, good rigidity, high cutting speed, safe, reliability and multipurpose. The T8370 is better suitable for repairing/boring the brake drum and brake piece of large-or-medium-

sized vehicle, In the accessories of T8370, there are universal hub-

heads, coupling plates and locating plates to assist the brake drum in position leaning on the retaining ledge, and the brake drum also can be bored depending on the hub-head in the brake drum.

Main specifications

.

Model	Unit	T8370
Range of processing diameter	mm	Φ350-Φ650
Rotating speed of workpiece	r/min	30, 45
Working travel of slide board	mm	450
Feed range	mm / r	0.4- 0.07 (4 steps)
Motor power	Kw	0.85 / 1.1
Overall dimensions (L*W*H)	mm	950*900*1450
Packing dimensions (L*W*H)	mm	1200*1050*1680
N.W./G.W.	kg	900 / 1000
